Education

Ain Shams University, Cairo, Egypt

- Bachelor of Computer Science, Bioinformatics, 2018-Present
- GPA: 3.1 out of 4.0

Experience

- **Full Stack Developer Training**, Excel Systems – Aug 2021 – Sep 2021
 - Worked on a website part of a supply chain
 - Used Onion Architecture while developing the project
 - Used Agile methodologies to Structure our workflow

Projects

- Brain-Computer Interface Using EEG Signals for Wheelchair Control (Link available in early July)
 - Graduation project at Ain Shams University, Bioinformatics Department.
 - Control a wheelchair by extracting simple commands from your thoughts using EEG signals.
 - **Tools and Concepts: Machine Learning Algorithms, Python, Scientific Research, Flask, APIs, Networking, Raspberry PI OS, Bash, Android Studio, Java.**
- [Manufacturer Supply Chain Website](#)
 - Part of a supply chain website targeted for the manufacturer to use to place his orders.
 - Developed during Full Stack Developer Training at Excel Systems in less than one month.
 - **Tools and Concepts: .NET Frameworks, Onion Architecture, Agile.**
- [Exercise Tracker Microservice](#)
 - A simple exercise tracker microservice which you can track your progress.
 - **Tools and Concepts: Node.js, MongoDB, HTML, CSS, NoSQL.**
- [Simple Kernel](#)
 - OS kernel which performs basic operations of an operating system.
 - **Tools and Concepts: Memory management, semaphores, shared variables, page fault handling**

Certificates

- Deep Learning. Certificate earned on May 3, 2020.
 - By deeplearning.ai on Coursera
- Machine Learning. Certificate earned on July 3, 2020.
 - By the University of Washington on Coursera
- APIs and Microservices earned on April 25, 2021
 - By freecodecamp.org
- Data Structures and Algorithms. Certificate earned on October 9, 2020
 - By the University of California, San Diego & National Research University Higher School of Economics on Coursera.

Skills

- Tools: ASP.NET, SQL Server, Sklearn, TensorFlow, Anaconda, Jupyter Notebook, Node.js, Git, MongoDB, PL/SQL
- Languages (Ordered by proficiency): Python, C++, C#, JavaScript, Java, R, MATLAB, HTML, CSS
- Concepts: Problem-Solving, OOP, Data Structures, Algorithms, Machine Learning, Agile Methodologies

Honors and Awards

- **46th** place in the 2020 Egyptian Collegiate Programming Contest out of **150+** teams.
- **7th** place in the 2020 Ain Shams FCI Collegiate Programming Contest out of **45+** teams.
- **26th** place in the 2019 FCI Ain-Shams Collegiate Programming Contest out of **50+** teams.
- **2901** rank worldwide out of **9004** teams in Google Hash Code 2021.
- **2052** rank worldwide out of **10742** teams in Google Hash Code 2020.
- **6th** place in Data Structures competition.

Extracurricular Activities

- acmASCIS student activity part of acm.org, Ain Shams University - Competitive programming mentor. Sep 2019 – Sep 2021
 - Wrote and tested problems for competitive programming contests
 - Helped students new to programming to understand the basic concepts and improve their skills
- SupportASU, Ain Shams University – Machine Learning committee member - Dec 2020 – Present
 - Helped teach students Machine Learning and Deep Learning Algorithms
- JPMorgan Chase Software Engineering Virtual Experience program participant - Jan 2021
- KPMG Data Analytics Consulting Virtual Internship Jan 2021
